UltraFast Innovations Partnership with Edmund Optics

UltraFast Innovations and Edmund Optics® Partner to Provide Global Access to the Highest-Precision Laser Optics

January 11, 2021, Garching, Germany

**Better together** - Edmund Optics® (EO) and UltraFast Innovations (UFI) have formed a strategic partnership to provide global access to industry-leading laser optics for the most demanding applications. EO is now the exclusive global distributor of UFI optics to the industrial market. EO stands for excellence in the Optics & Photonics industry offering a large product portfolio and inventory supported by excellent customer service while UFI is specialized in manufacturing high-performance laser optics including (highly) dispersive ultrafast mirrors, chirped mirror pairs, low-loss high laser-induced damage threshold (LIDT) mirrors, and (X)UV optics. Our unique dispersive technology allows the generation of the shortest laser pulses available on the market. Together EO and UFI will offer integral consulting to assist customers in solving highly-challenging laser optics problems.

**Fast and Easy Access to unique optics** - In addition to providing custom solutions, this partnership allows customers fast and easy access to UFI optics as EO will also maintain a global inventory of standard UFI components that will reduce the long lead times typical of high-precision and high-power laser optics. Highest-Precision UFI optics are kept in-stock and are available for immediate shipping.

Company Profiles

About EO:
Edmund Optics® (EO) is a leading global supplier of optics, imaging, and photonics technology that has served a variety of markets including Life Sciences, Biomedical, Industrial Inspection, Semiconductor, R&D, and Defense since 1942. EO designs and manufactures a wide array of optical components, multi-element lenses, imaging systems, and optomechanical equipment, while supporting OEM applications with volume production of stock and custom products. With locations in more than nine countries across the globe, EO employs just under 1,000 employees and continues to expand. Customers can purchase items by calling 1-800-363-1992, via the catalog, or on the website at [www.edmundoptics.com](http://www.edmundoptics.com).

About UFI:
Ultrafast Innovations GmbH (UFI) is a spin-off from the Ludwig-Maximilians-Universität München and the Max Planck Institute of Quantum Optics. UFI is a premium manufacturer of optics with complex designs, dielectric optics for laser applications, and dielectric/metallic multilayer structures for XUV/soft X-ray applications. Combining broadband coherent sources with unique dispersive technology, UFI also offers the generation and measurement of the shortest pulses in the market in the femto- (UV-VIS-IR) and attosecond (XUV/soft X-ray) ranges.
